## Summary

Results-driven Full Stack Developer skilled in Java, Spring Boot, React, and MySQL. Experienced in building responsive, scalable web applications with clean architecture and performance-optimised features. Strong ability to apply problem-solving, collaborate in Agile teams, and deliver user-centric digital solutions. Passionate about backend development, API design, and end-to-end application development.

## Education

<b>V.S.B Engineering College</b> , BE in Computer Science and Engineering (CGPA:8/10)	Sep 2020 – May 2024
<b>Cheran Higher Secondary School</b> , HSC-Class-60%	Jun 2019 – May 2020
<b>Cheran Higher Secondary School</b> ,SSLC-73%	Jun 2018 – May 2019

## Experience

**Java Full-Stack Developer Intern ( HCL-Guvi)** June 2025 – Aug 2025

- Developed backend modules using Java, Spring Boot, JPA/Hibernate, enabling smooth CRUD operations and improving API performance.Designed responsive React UI components and integrated them with RESTful services to enhance user experience.Implemented MySQL schema design, optimised queries, and ensured efficient data flow across modules. Participated in code reviews, testing, and deployments using Git, Maven, and Postman.

**Java Application Development Intern(Uniq-technologies)** , Aug 2022 – Sep 2022

- Built and maintained Core Java modules using Collections, OOP concepts, exception handling, and file handling. Performed unit testing and debugging, reducing runtime errors and improving code stability. Integrated applications with MySQL using JDBC, handling CRUD operations and troubleshooting connection issues.Collaborated in an Agile environment, contributing to requirement analysis and documentation.

## Relevant Projects

**Learning Management System** Sep 2025-Oct 2025

- Built a scalable full-stack LMS using React + Java Spring Boot, supporting role-based access control and secure authentication. Implemented RESTful APIs, data seeding, and layered architecture, improving backend maintainability by 40%.Added JUnit test coverage, increasing backend reliability and reducing bugs before deployment.

**E-commerce Application** Aug 2025- Sep 2025

- Developed a complete e-commerce platform using React/TypeScript + Spring Boot, enabling product listing, cart management, and order processing. Implemented JWT-based authentication and optimised CRUD operations with MySQL, improving API response time by 25%.Built a modular backend (Controller → Service → Repository), ensuring clean code organisation and scalability.

## Skills

**Programming Languages:** Java, C (Basic)

**Frontend:**HTML, CSS, JavaScript, React.js, TypeScript, TailwindCSS, Bootstrap

**Backend:**Spring Boot, REST APIs, JPA/Hibernate

**Database:**MySQL, JDBC

**Tools Platforms:** Git, GitHub, Netlify, Postman, VS Code, Figma

**Core Skills:**OOP, Data Structures Algorithms, Debugging, API Integration, Unit Testing

## Certifications

**Java Full-Stack Developer** in HCL-Guvi (2025)

[View Certificate](#)

**Java Application Development** in Uniq Technologies (2022)

[View Certificate](#)
